

Hindustan Waste Treatment Hosts CITIIS 2.0 Delegation in Partnership with SFC Environmental Technologies

SFC Environmental Technologies, the parent company of **Hindustan Waste Treatment (HWT)**, proudly partnered with **CITIIS 2.0** — a flagship initiative of the **Ministry of Housing and Urban Affairs (MoHUA)**, implemented in collaboration with **AFD, KfW, the European Union, and NIUA** — to promote **circularity and sustainable urban development** in India.

The event brought together leaders, policymakers, and innovators dedicated to building smarter and cleaner cities through advanced waste management solutions.

Highlights from the event:

- Showcasing our **cutting-edge North Plant prototype**, representing innovation in circular waste treatment.
- **Panel discussions** on *#WasteToWealth* and transformative waste management practices.
- A guided **tour of our Saligao Plant** for over 100 distinguished guests, including Smart City CEOs, Municipal Commissioners, and international delegates.

This collaboration offered a valuable platform to engage with **18+ Smart Cities** and key stakeholders, strengthening partnerships to **redefine waste management and clean energy initiatives across India**.
